

Setting Up an External Transfer

Login to Online Banking.

Select Transfers from the left-hand menu.

Click +External Account to set up a new external account connection.

You will be prompted to enter the following information for your account at another financial institution:

The screenshot shows a mobile application interface for adding an external account. The title is "Add external account" with a back arrow on the left. There are four input fields: "Account name" with an "Enter" button, "Routing no." with an information icon and an "Enter" button, "Account no." with an information icon and an "Enter" button, and "Account type" with a "Select" dropdown arrow. At the bottom, there is a blue "Submit" button with a yellow arrow pointing to it from the left.

In your account at your other bank, you will receive two micro deposits that will total less than \$1.00 within 1-3 business days. After so many days those deposits will be debited back from your account. There is also a deadline given for when those deposits need to be entered in your online banking at HSB.

The screenshot shows a confirmation message. At the top is a green checkmark icon inside a circle. Below it is the heading "Deposits sent" followed by the text: "We've sent two small deposits to verify your Checking account. When they arrive in 1-3 business days you'll need to confirm the amounts. By confirming these deposits you acknowledge you have legal access to this account. You have until May 3 to confirm the deposit amounts." At the bottom is a blue "Ok" button with a yellow border.

Once you have received the two micro deposits you will go to Transfers in the main menu. Choose External accounts.

Click on the account you need to enter the micro deposits for.

Enter the micro deposits.

Click Confirm.
